

**Position Announcement:** Environmental Technician

Ecosystem Planning and Restoration, LLC, (EPR) has an open position for a full-time Environmental Technician in our Raleigh, NC office. EPR specializes in ecosystem restoration and mitigation, environmental studies, permitting, and watershed studies. We are a growing firm with East Coast and Gulf Coast locations, and are actively looking for motivated, high quality individuals to help build our business.

Qualified Environmental Technician candidates will hold a technical degree related to their profession and have at least 2 years direct experience in ecosystem restoration and mitigation projects, CADD support, GIS, and/or environmental field assessments. Experience should include development of professional quality deliverables, data collection, report writing, and field assessments. Preferred candidates will be self-motivated, be able to show detailed experience working with tasks on ecosystem restoration and/or environmental projects, work well in a team setting, be thorough and detail oriented about their work, and have the ability to travel periodically. Duties will include working with engineers, project managers, and other technical staff to assist with environmental projects.

Benefits include health insurance, 401K with company match, employee bonus plan, vacation and sick leave, and continuing education training. Salary commensurate with experience and abilities.

Please Send Resume and Cover Letter to:

Ms. Christa Morrison, 559 Jones Franklin Road, Suite 150, Raleigh, NC 27606
